

Dear Teachers, Students, Parents, and Guardians,
We want to learn more about technology access and use for learning in our district.

The goal is to gather data on technology access, skills, and your school's technology environment and understand the connection between technology use and student achievement. We will not collect email addresses. Responses cannot be changed after being submitted. The survey should take you less than 5 minutes to complete.

Our data collection window runs from April 22nd to April 26th. Links are designed for administrators, teachers, students, and parents and guardians.

Your questionnaire links are listed below:

Walton-Verona Administrators, [Click here for survey](#)

Walton-Verona Teachers, [Click here for survey](#)

Walton-Verona Students, [Click here for survey](#)

Walton-Verona Parents & Guardians, [Click here for survey](#)

Your participation and support are essential to us and will make the difference between a complete understanding of our school's technology use versus a limited one. Please let us know if you have any questions.

Jason Reis
Director of Technology
